

Statement of ingredients for food sensitive individuals.

Although we are not certified nor had any lab tests performed, after careful review of all components added into our Sausage Kitchen recipes, we can safely say-

Dick's Fresh & Smoked Sausages contain no major food allergens

- a. milk
  - b. egg
  - c. fish
  - d. shellfish
  - e. tree nuts
  - f. wheat
  - g. peanuts
  - h. soybeans
  - i. poultry
- 

*Below is an unsolicited statement from a customer on gluten:*

 Email received Jan. 2012

Hi,

I contacted you in November as to whether your sausage is gluten free. I know you can't say for sure because of the hassle of having to get certified. But I thought I would let you know that since then I have eaten your **kielbasa** on a regular basis, your **bratwurst** and **breakfast sausage**.

I have celiac disease and have had no problems at all after eating them. So I consider them gluten free.

I hope this helps if you are ever asked by someone else. I would also like to thank you for having a gluten free section. It is nice to have the basic things you carry available so close without having to go to G.R.

The only request I have is if you could get Bards beer. Red Bridge is awful.

Have a Great Day, Craig Baier
